OGMCOAL - West Ridge NOV

From: Steve Christensen
To: Dave Shaver
Date: 7/21/2010 9:54 AM
Subject: West Ridge NOV
CC: OGMCOAL

Dave,

I forgot to mention something in my last e-mail. You are probably already aware of this but Dana and Daron indicated yesterday that during their interagency meetings, the Division of Water Rights has stated that the stream channel alteration permit process can be rather slow. I'm not sure what changed there, but it would appear that you'll have to get another emergency authorization from Marc Stillson in order to begin work while the alteration permit is processed.

Again, you probably already knew that, but I wanted to mention it anyway.

Talk to you soon.
Steve

f.y.i.- I'll be out of the office tomorrow for Pioneer Day and will be back on Monday (the 26th) if you have questions.
