Subject: Underground Mine Water Treatment, West Ridge Resources, Inc., West Ridge Mine, C/007/0041, Task ID #3602

Dear Mr. Shaver:

The Division of Oil, Gas and Mining has concluded its technical review of the recently submitted Underground Mine Water Treatment amendment and has recommended conditional approval. Final approval will be granted when the following conditions have been met:

- Submit the manual for the SOLITAX sc sensor to be utilized at the site. A previous submission had included the manual as an appendix of Attachment 10 of Appendix 5-15. Please resubmit the manual for incorporation into the approved Mining and Reclamation Plan (MRP).
- Receipt of 6 clean copies prepared for incorporation by no later than September 23, 2010.

A stamped incorporated copy of the approved plans will also be returned to you for insertion into your copy of the MRP. This modification does not necessitate an update to the Technical Analysis.

If you have any questions, please call me at (801) 538-5325 or Ingrid Campbell at (801) 538-5318.

Sincerely,

James D. Smith
Permit Supervisor
