The abatement dates have been modified as follows:

Submit revised plans for the construction of Sub-catchments 'C' and 'E' and methodology for clean-up from UPDES Outfall 002 to Sub-catchment 'E' by October 7th, 2010.

Complete Abatement Measures by October 19th, 2010 (90th day).

Reason for modification:
In order for the Permittee to permit the sub-catchments, additional soil monitoring/data collection is necessary. In order to facilitate the additional data collection and subsequent laboratory analysis, more time is required. Additionally, the lateral extent of clean-up measures from UPDES Outfall 002 to Sub-catchment 'E' is approximately seven miles. More time will be necessary to complete the clean-up than was previously identified.
