Subject: Final Approval, West Ridge Mine, C/007/0041, Change in Water Monitoring, Task ID #3738

Dear Mr. Shaver:

The above-referenced amendment was conditionally approved on March 8th, 2011. Final approval was stipulated on two conditions:

- 1) The Permittee was to revise the text on page 7-36 and Table 7-1, Hydrologic Monitoring Protocols and Locations to identify when the annual sample will be collected for surface water monitoring site ST-10 (i.e. which quarter).
- 2) Provide six clean copies.

The conditions have been met and the change in water monitoring amendment has been granted final approval. Enclosed is a stamped incorporated copy for insertion into your copy of the Mining and Reclamation Plan.

Thank you for your help during this process. If you have any questions, please feel free to call me at (801) 538-5262.

Sincerely,

for 
James D. Smith
