Hi Steve,

Sorry we keep missing eachother, here is some answers to some of the questions on you previous email.

- 1) UG-1: Specific Conductance value for April was 1790
- 2) UG-1: Specific Conductance value for May was 1780
- 3) Spring SP-80: Flow Value for 2nd Quarter: 10.8 GPM
- 4) UPDES 002: March Specific Conductance value was 1757
- 5) UPDES 002: April Specific Conductance value was 1760
- 6) UPDES 002: May Specific Conductance value was 1764

Steve im still working on the database but ST-6 & ST-8 have been ok'd for upload as well as ST-15 which was DRY I entered it into the database. I am now working on the Flume data for the 2nd quarter.

Thank you
God Bless
JD Leonard
