Hello Karin,

In processing the application you submitted to remove Catchment Structures C and E from the West Ridge permit, the question arose as to whether or not this application should be submitted as a bond release or an amendment (permit change).

I checked with Dana, our Associate Director, and it was decided that it should be submitted as a bond release as you are asking for the catchment structure areas to be released from the West Ridge permit.

Will you please resubmit this application as a Bond Release?

Thank you!
