Hi Karin,

Our staff has been trying to review the Midterm Response (Task #5347) for the West Ridge mine that was submitted on December 13, 2016. It has been very difficult for them to complete the review because of the many changes that were made to the West Ridge plan. Our Submittals Format Guide expressly states that review copies should be submitted in a redline/strikeout format. (See R645-301-121.300) Redline/strikeout helps guide the staff in understanding what changes are being proposed. Could you please resubmit the West Ridge Midterm response in a Redline/ Strikeout version so that the staff can complete the review? Thank you for your help.

Regards,

Daron
