Hello Karin,

The Division received the above-noted application on 4/5/17.

Pursuant to R645-303-221, this application did not pass the 15-day Initial Review.

The following were noted:

1. The Redline Strikeout of the Chapter 5 Table of Contents pagination is not correct.
2. The Clean Copy of the Chapter 5 Table of Contents includes headers which do not start at the beginning of the pages but rather start at the end of the previous pages.
3. The C2 indicates that only pages 5-29 and 5-31 should be replaced; however, the Chapter 5, pages 5-1 thru 5-30 should be replaced as each page has information which has "shifted" in the flow of the document.
4. The C2 indicates that the entire Appendix 5-13 should be replaced with those pages included in the submitted application; however it appears that only the first three pages of Appendix 5-13 are being replaced. Please verify if this is correct.

Please resubmit the application. Once the application passes the Initial Review, the Division will accept the application for a technical review.

Thank you

—
