Re: 1996 Biological Opinion Coordinated Review, Sunnyside Cogeneration Associates (SCA), Star Point Refuse, C/007/042-PM02, Outgoing File

Dear Mr. Maddux:

The Division of Oil, Gas and Mining determined the application to permit the Star Point Refuse Mine administratively complete on June 28, 2002. This new permit application will transfer 323.95 acres of previously disturbed land at the Star Point Mine from Plateau Mining Corporation to SCA. A detailed map of this area is attached.

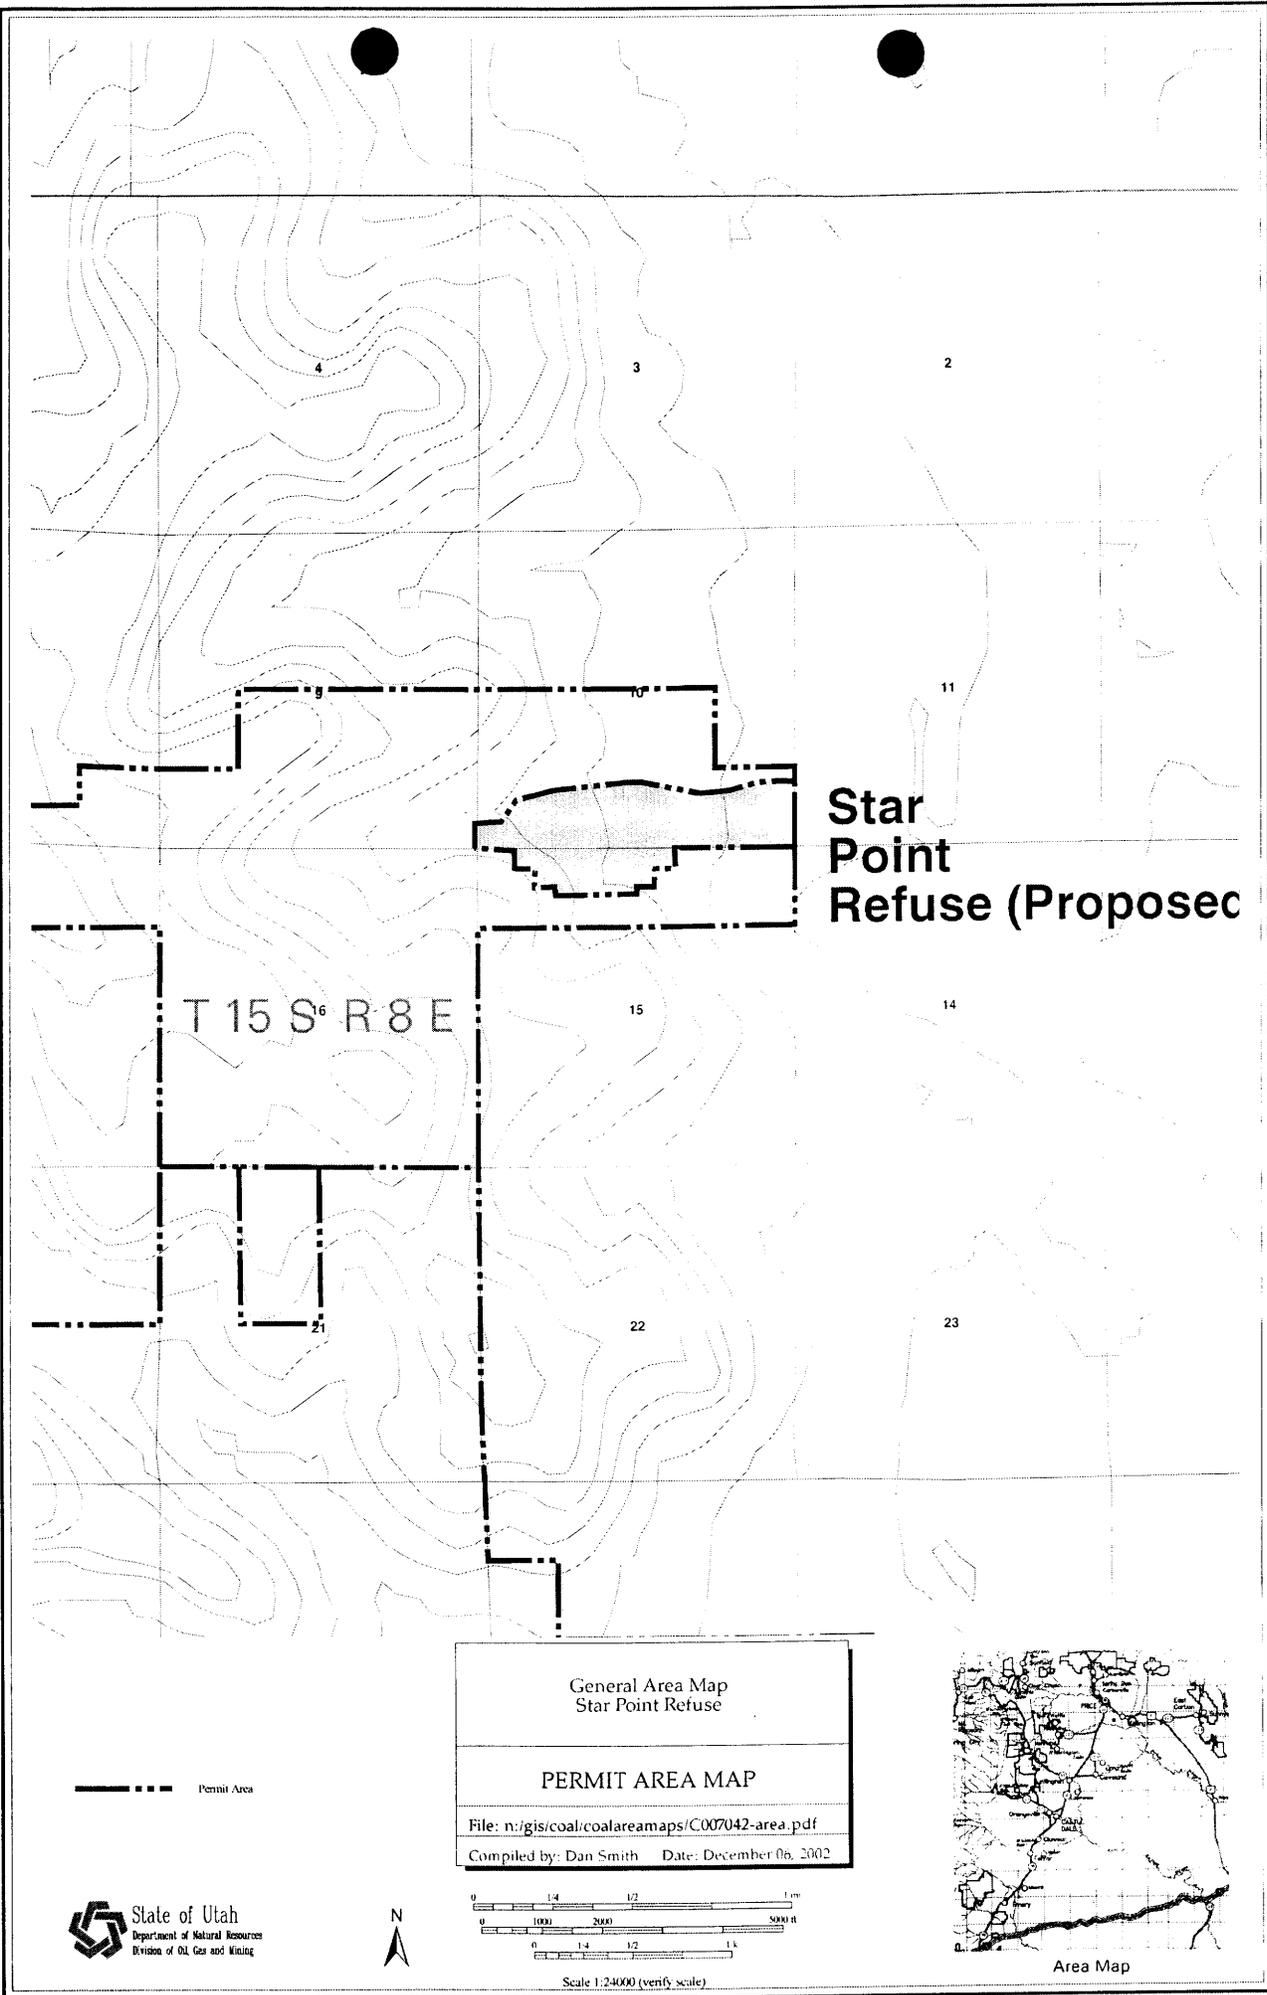

We have reviewed the project and have determined that listed species or critical habitat is not potentially present in the proposed permit or adjacent area. If requested, the Division will provide you with the resource information for this project within 10 days of receipt of written request. We also invite your comments on other aspects of this proposal.

If you have any questions or disagree with our determination about this project, please call me at (801) 538-5268 or Priscilla Burton at (801) 538-5288.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
