Subject: Star Point Change in Change in Post Mining Land Use (task 3361) Change in Permit Boundary Task 3363)

I have conducted IR's on both amendment submittals and found them to contain sufficient information to conduct the technical analysis on each.

Karl, you will have to look at the Engineering and bond on the amendment(s). Thanks Dave

You did the IR on Star Point Refuse, Change in Permit Boundary, Task ID #3363....did you mean to do the IR on #3361, Change in Post Mining Land Use?

Just wondering...cuz of the cc: to Karl.

Anyway, I processed the IR on #3363...

Thanks!
Suzanne
