RE: Star Point Waste Fuel - Permit # C/007/042
Permit Amendment – Change in Permit Boundary - Task #3363

Dear Daron:

As you are aware, SCA has been working with ConocoPhillips over the past few years to assist them in utilizing a gas lease that they received from the BLM on a portion of federal property within the mining permit area. SCA submitted a permit amendment in 2009 and received comments from the division staff. In response to the comments received, SCA is submitting this updated permit amendment (five copies each).

This amendment to change the Permit Boundary is submitted subsequent to a separate amendment (task #3361) to change the PMLU and Reclamation plan for the gas operations area. This amendment is submitted with the understanding that the permit boundary change would not be approved until after the PMLU change and the corresponding Reclamation was accepted and bond released for that portion. Nonetheless, SCA has submitted this amendment at this time so that review can be consecutive.

In addition to changing the permit area to exclude the gas operations area, SCA has also adjusted the boundary to remove additional undisturbed areas that are not anticipated to be necessary for SCA's operations.

If you have any questions, please call Scott Carlson (801) 450-3511 or Rusty Netz (435) 888-4476.

Thank You,

Richard Carter
