Hi Angela,

Was the connection between COSI and Sunnyside Cogeneration Associates ever resolved? If not, there is a connection that should be disclosed in the MRP. i.e. This week's Sun Advocate has an advertisement for a power plant technician at Sunnyside. To apply for the job, one must go to [www.constellation.com](http://www.constellation.com). See attached scanned ad.

Constellation Energy appears to be acting as an operator of the power plant (hiring and paying employees etc.), so their officers and directors must be disclosed.

Priscilla.

Hello Angela,

As described below in an email to Kevin (copied to you, Daron and Jim), there is still an unresolved question of the controlling company with the acronym COSI. I suggested that Daron flush this out when he spoke with SCA's attorney. I think this needs some follow up on our part. They should provide further documentation for us to either link or unlink the entity in the AVS.

Priscilla

>>> Priscilla Burton Thursday, March 18, 2010 10:50 AM >>>

I have completed my review of Task 3495 and Task 3496 and recommend approval, pending an AVS evaluation. (The locked entities in the AVS database require updating to include changes to officers and directors that were included with the applications.)

I have emailed the changes to Linda Keene at OSM.

Information in the application indicates that an environmental manager for the site is employed by a company called Constellation Operation Services Inc. (COSI). Rusty Netz tells me that he is also an employee of COSI. COSI is listed in the AVS, but was not previously linked to Sunnyside Cogen. I have linked them as a contract manager at the site, along with Savage.
