Subject: Determination of Administrative Completeness for Change in Postmining Land Use, Sunnyside Cogeneration Associates, Star Point Waste Fuel, C0070042, Task ID #3496, Outgoing File

Dear Mr. Blakely:

The Division has completed a review of the information you submitted on February 22, 2010. This application is considered to be administratively complete. A technical review of your plan has been initiated. Technical deficiencies, if any, will be forwarded to you as reviews are completed. The Division will also coordinate with other agencies and incorporate their comments into our review process. Issues raised will need to be resolved prior to approval of permit revision.

At this time you should publish a Notice of Significant Permit Revision for changing the postmining land use at Star Point Waste Fuel as required by R645-300-121. A copy of the publication should be sent to the Division as soon as it is available. You should also insure that a copy of the application is on file at the appropriate County Courthouse. The Division will complete a technical review, which must find that your application is technically complete. We look forward to working with you throughout the permitting process. Please call if you have any questions.

Thank you for your help in the permitting process.

Sincerely,

James D. Smith  
Permit Supervisor
