Subject: Denial of Roads D, F & L, Sunnyside Cogeneration Associates, Star Point Waste Fuel, C0070042 Task ID #3598

Dear Mr. Carter:

The Division received your application for the above-referenced amendment on August 2, 2010 to designate three roads as "Primary Roads" at the Star Point Waste Fuel site. The Division has determined that there are some deficiencies that must be addressed before a determination can be made that the requirements of the R645 Coal Mining Rules have been met, and an approval can be granted. Those deficiencies are listed as an attachment to this letter. Each deficiency identifies its author by that author's initials in parentheses; such that your staff can directly communicate with that individual should any questions arise relative to the preparation of SCA's response to that particular deficiency.

The plan as submitted is denied. Please resubmit the application package.

If you have any questions, please call me at (801) 538-5262 or Kevin Lundmark at (801) 538-5352.

Sincerely,

James D. Smith
Permit Supervisor

Deficiency List

Task ID# 3598

Primary Roads D, F & L – Star Point Waste Fuel

The members of the review team include the following individuals:

KL – Kevin Lundmark (801) 538-5352

JO – James Owen (801) 538-5306

PH – Pete Hess (435) 613-3731

R645-301-742.423 (KL) The application does not contain the drainage control design criteria and plans required by the State of Utah R645 Coal Mining Rules. The Permittee must revise/update the MRP to include the drainage control plans for primary roads as follows:

- Update MRP Section 742 text and Tables 742a thru 742d, as necessary, to provide drainage control design information for all primary roads at the site, including roads D, F, L and Haul Road;
- Identify primary roads D, F, L and Haul Road and their associated drainage controls on MRP Maps 731.720a and 731.720b; and
- Remove all references to Map 731.720c from MRP section 742.
