Subject: Explosives not used at Wellington

CC: "Gina Rau" <grau@headwaters.com>
Pam,

Jacqui
d/007/0045 JK

We do not use any kind of explosives here at the Wellington site. Our process involves the use of fans and air only for the separation. We do not store or have we ever have had any kind of explosive on this site. Hope that this helps. If you have any questions, give me a call.
