Gina -

Thank you for letting me know the status of the COVOL permit application. The Division looks forward to the submittal of a complete and adequate permit application for the COVOL Wellington facility on January 15, 2008.

Thank you.

Pam

Pam,

We are working on the application for the mine permit for Covol Engineered Fuels' Wellington, UT facility. We experienced some difficulties obtaining the AutoCad drawings of the Wellington facility and then had to address AutoCad formatting issues with the drawings. As such, we will not be able to submit a complete application by December 31, 2007 as we discussed previously. Our consultant is currently working with the drawings in order to prepare the graphics required for the application. We anticipate having a complete application package ready for submittal by January 15, 2008.

If you have any questions, please let me know.

Thank you,

Gina
