Hi Richard,

I thought I'd send a quick e-mail and see what the status is with the ownership and control/bonding revisions for the former Covol/Headwaters facility?

Steve

Good morning Richard,

I wanted to touch bases on a few Covol items. Specifically, I wanted to know what the status was for submitting clean copies for Division Order 12B (Task ID #4308). According to our records, it was due on May 16th.

Additionally, what's the status of the ownership and control/bonding amendment? By rule, we're past due on that one as well.

Please let Daron or I know when you get a chance.

Thanks,  
Steve
