2. Signs and Markers

The identification sign was inspected and it meets the requirements of the R645 Coal Rules.

7. Coal Mine Waste, Refuse Piles, Impoundments

There are two large stockpiles of material located at the southern end of the property. See Photo

21. Bonding and Insurance

The Division has made a determination/finding that the Wellington Dry Coal facility is under bonded. It is largely due to the two stockpiles of material located at the southern end of the property. The Division had requested an increase in bond in letter dated on August 11, 2017. A Cessation Order most likely will be issued.
