Mr. Norris,

Thank you for quickly addressing this bonding issue. Suzanne tells me that everything is in order and this takes care of the additional bond that was required.

Steve Demczak will still need to officially terminate the Cessation Order, but by this email, I hereby authorize you to resume activities at the Wellington site because the bond is now adequate.

Thank you,
Dana

Good afternoon, Mr. Haddock.

Enclosed is a *copy* of a General Purpose Rider for the BRC Wellington, LLC, Wellington Dry-Coal facility, for your records. We are sending the *original* of this document to you today via overnight mail. It should arrive there on Monday. We believe this fulfills the bonding requirement of said facility, in accordance with your letter of August 11, 2017 to Kyle Edwards. I apologize for this rider not being delivered to you in a timely manner.

If you have any questions re: this matter, please let me know at your earliest convenience.

David P. Norris

Interim Controller

Bowie Refined Coal, LLC
