OCT 31 2012

Mr. Greg Hunt  
Wasatch Natural Resources, LLC  
299 South Main, Suite 1300  
Salt Lake City, Utah 84111

Dear Mr. Hunt:

Subject: Inspection Report – UPDES Permit No. UTG040028 – Wasatch Natural Resources, LLC  
Kinney #2 Mine

On August 21, 2012 I completed a brief Reconnaissance Inspection at the proposed site for the Kinney #2 Mine. Enclosed is a copy of the inspection report. No deficiencies were noted and no response to this inspection report is needed.

If you have any questions, please contact me at (801) 536-4386 or by e-mail at [mherkimer@utah.gov](mailto:mherkimer@utah.gov).

Sincerely,

Mike Herkimer, Environmental Scientist  
UPDES Engineering Section

## **INSPECTION PROTOCOL**

UPDES Permit #: UTG040028 – Wasatch Natural Resources, LLC/Kinney #2 Mine  
Inspection Type: Reconnaissance Inspection (RI)  
Inspection Date: August 21, 2012

Mike Herkimer of the Division of Water Quality (DWQ) drove by the site where the mine will be constructed. It was a bright and sunny day approximately in the 70s.

## **FACILITY DESCRIPTION**

Location: Adjacent to and northeast of the Town of Scofield on State Hwy. 96

Coordinates: 39° 44' 41" north latitude, 111° 09' 03" west longitude (coordinates for Outfall 001)

Discharge Points: There will be only one discharge point, and it will be just to the west side of State Hwy. 96

Average Flow: There has been no average flow as the facility has not been built yet.

Receiving waters: Mud Creek and Scofield Reservoir.

Process: A drive-by of the site was completed. No construction has begun yet.

## **OBSERVATIONS & INSPECTION SUMMARY**

This is a new coal mine which has not been constructed. This permit has undergone a transfer of ownership and it is uncertain as to when construction will begin. The transfer of ownership papers were sent to Perth, Australia. There is a contact in the United States and this RI report will be sent to that person. At this point in time it is uncertain if the plans for the mine have changed. The Division of Water Quality (DWQ) needs to be informed when construction will begin. If more than one acre of land disturbance is planned, then a storm water construction permit is needed. This needs to be obtained before construction begins. For information on the construction storm water program and how to obtain a Notice of Intent to obtain the permit, please contact Harry Campbell of DWQ at 801-536-4391 or [hcampbell@utah.gov](mailto:hcampbell@utah.gov).
