1. Permits, Change, Transfer, Renewal, Sale

The MRP was approved in May of 2011. However the bond has not been posted. Once that transaction is completed the Division can issue a permit to begin mining and mine related development activities. Carbon Resources plans to initiate a permit transfer once the bond is posted.

3. Topsoil

The undisturbed surface facilities area for the mine was being used as a staging area for the equipment used for the current exploration activities.

9. Protection of Fish, Wildlife and Related Environmental Issues

The undersigned met with Jerry Jones, construction and maintenance supervisor at the Scofield State Park facility, to discuss possible locations for an osprey nesting platform at or near the park. Jerry and I discussed several locations and referred me to Dan Richards, the park manager. I met with Dan the next morning and we planned a site visit with Jerry and DWR biologists Makeda Hansen and Nicole Nielson on August 22nd.
