Subject: Additional Information Needed for Determination of Administrative Completeness for Proposed Kinney Mine, Coal Energy Group 3, LLC, Task ID #5779, C/007/047

Dear Mr. Nead:

The Division has completed a review of the application you submitted on November 20, 2018. This application is not considered to be administratively complete at this time. A copy of our review worksheet is enclosed for your information and records.

Our review has identified a few items that need to be addressed in order for the application to pass the Administrative Completeness standard. These items are listed below.

- 1) The filing fee has not been paid as required by R645-301-118.
- 2) Sufficient Right-of-Entry information has not been provided in accordance with R645-301-114. The Right-of-Entry description will identify the documents by type and date of execution and explain the legal rights claimed by the applicant.
- 3) In accordance with R645-301-113.300, the application needs to have the three year violation history for any coal mining and reclamation operation owned or controlled by the applicant or operator. This must include any of the mining operations owned or controlled by the applicant.

In order for us to determine your application to be Administratively Complete, the above items must be addressed and submitted as part of your application.

Please call if you have any questions. Thank you for your help in the permitting process.

Sincerely,

Daron R. Haddock
Coal Program Manager
