Re: Western States Coal Corp.
Dog Valley Mine
#43-015-002
Sec. 32, T. 23 S., R. 6 E.
Emery County, Utah

Numerous State Leases

The Dog Valley underground coal mine was inspected on February 25, 1976 with Jeff Brinton of the Division of State Lands. The purpose of the visit was to gather additional information prior to tentative approving the reclamation plan for the mine.

Some clean-up of the mine property has been performed since the last inspection of Oct. 28, 1975. A new reject pile has been started in the area designated by the company on the reclamation plan map.

The mine is now ready to be tentatively approved for operation.
