Memo to Coal File:

RE: Western States Minerals
J.B.King Mine
Emery County, Utah
ACT/015/002

Mr. Brian Honey called today to inform the Division that he is now working for Western States Minerals at the J.B. King Mine, replacing Mr. Bill Sikes as the mine engineer. Mr. Honey was formerly with Coal Search Corporation at the Knight Mine.

Mr. Honey asked if it would be possible for the Division to grant Western States Minerals an extension of time for abating some of the past violations which the State has issued for the J.B. King Mine. He was informed to submit his request in writing, along with his proposed plan to abate those violations and bring the mine into compliance.
