Re: J.B. King Mine
Mine Entries and Topsoil
Stockpile Approval
ACT/015/002
Emery County, Utah

Dear Mr. Honey:

On April 23, 1980, the following proposed activities were inspected by Division personnel for compliance under the Interim Regulatory Program: 1) The face-up operations and development of a new portal area with three entries; and, 2) Consolidation and relocation of two existing topsoil stockpiles.

Following this inspection, a meeting was held with the Division's inspection and technical staff and it was concluded that the Division would grant approval to Western States Minerals to proceed with the above activities at the J.B. King Mine.

Should you have any questions, please feel free to contact this Division.

Sincerely,

Ronald W. Daniels
