Dear Ms. Boucek:

On October 14, 1982, I sent you a letter regarding the macro-invertebrate sampling program to be conducted in Rilda Canyon. At that time, I requested that any comments or criticism should be directed to me. To this date, I have not received any comments whatsoever. Should I not receive comments following this letter, I will assume that the program is entirely satisfactory with your agency.

Our second sampling is projected to take place next spring so that there is some leeway in commenting. However, an expeditious reply would be appreciated.

Sincerely,

Jack A. Elder, Ph.D.
