Gentlemen:

This is in response to your Apparent Completeness Review letter of April 7, 1983 on the above referenced mine, Part 782 Coal Mining Permit Applications - Requirements for legal, financial, compliance and related information, Paragraph UMC 782.13, Identification of interests sub-section (D).

This is to advise you Western States Minerals Corporation has no current or previous coal mining permits in the United States other than Utah Permit No. ACT/015/002, nor do they have any pending permit applications to conduct underground or surface mining activities in the United States.

Trusting this is the information you require.

Yours very truly,
