TO: James W. Smith, Jr., Coordinator of Mined Land Development
FROM: Mary Boucek, Reclamation Biologist *Mary*
SUBJECT: J.B. King Mine - Administrative Completeness ACT/015/002
DATE: February 7, 1983

On February 4, 1983, the Division received an "amendment" to the mining and reclamation plan of the J.B. King Mine from their consultants, Coal Systems, Inc. I do not believe that this document constitutes an "amendment" to the MRP per se, but rather is intended to respond to those items which were found to be missing from the original (1981) permit application submission during our December, 1982, cursory ACR. This February, 1983, submission addresses the four items pointed out in the cursory ACR and the mine plan may now be determined to be administratively complete. The technical adequacy of these responses in addition to the adequacy of remaining aspects of the MRP will be addressed during the in depth ACR scheduled for March '83.
