Memo to Coal File:

RE: Western States Minerals Corp.  
J. B. King Mine  
ACT/015/002, Folder No. 2  
Emery County, Utah

Gus Marwaring called on Monday, May 14, 1984, regarding the status of the J. B. King Mine. He mentioned that his client Western States Minerals is leaning towards final abandonment and permitting the reclamation plan. They have not made this decision however.

I told him that the next step should be taken by the operator. We will proceed, however, with the Mining and Reclamation Plan unless instructed otherwise.

Pamela Grubaugh-Littig  
Reclamation Engineer
