Re: Final Seedling Selection  
J. B. King Mine

*INA/OIS/002  
#13*

Dear Ms. Mutz:

According to our recent discussions, you are aware that Native Plants cannot provide one of the seedlings ordered in August 1985 for the Spring 1986 planting. In addition, you recommended that the approved *Chrysothamnus Nauseosus* be eliminated if possible and other species be substituted in its place. Thus, after a number of discussions with you and the nursery, the following seedlings mix has been ordered.

<u>ITEM</u>	<u>QUANTITY</u>
Artemisia Frigida	500
Atriplex Canescens	1,450
Atriplex Convertifolia	1,450
Atriplex Gardeneri	1,500
Ephedra (total available)	<u>100</u>
Total	5,000

Planting will be conducted in early April dependent on weather conditions.

Sincerely,

COAL SYSTEMS, Inc.
