3 Triad Center, Suite 350
Salt Lake City, UT 84180-1203

Dear Mr. Whitehead:

This is to confirm a meeting scheduled for January 27th, 1988 between your Department, and a representative of WSMC. The purpose of the meeting is to agree on a conceptual design to repair the storm damage to the feeder channel at the J.B. King Mine. After conceptual design is determined, detailed planning will be completed, with field repair scheduled for April or May, depending on the weather.

In addition I would like to confirm our discussion where we decided it would be counter productive to revise map 4050-5-14 until the modifications to the feeder ditch have been decided upon.

Sincerely,

WESTERN STATES MINERALS CORPORATION

Thomas L. Hughes
