August 16, 1988

Mr. Larry Johnson
Western States Minerals Corporation
4975 Van Gordon Street
Wheat Ridge, Colorado 80033

Dear Mr. Johnson:

Re: Request for As-Built Drawing, Modified Feeder Ditch Diversion,
Western States Minerals Corporation, J. B. King Mine,
INA/015/002, Folder #2, Emery County, Utah

Western States Minerals submitted a projected construction drawing on May 19, 1988 for the above-noted feeder ditch configuration. The final field construction deviated from this plan so that an as-built or as-constructed drawing is required to keep the current reclamation plan on file with the Division up to date.

Please submit such a drawing, certified by a Professional Engineer no later than September 30, 1988.

Thank you for your attention to this matter. Please feel free to contact Tom Munson if you have any questions on this.

Sincerely,

A handwritten signature in cursive script that reads "John J. Whitehead".

John J. Whitehead
Permit Supervisor/
Reclamation Hydrologist
