J. B. King Mine, INA/015/002-87A, Folder #3, Emery County, Utah

The Division has completed a review of Western States Minerals Corporation plans, received December 11, 1987, for Ten Day Notice (TDN) #X87-02-006-009-TV-4, Number 4 of 4. Thomas Munson, Division hydrologist, has reviewed your response to our November 18, 1987 conditional approval. (Please refer to the attached memorandum for an explanation of the technical review and approval recommendation.) This letter will serve as the Division's final approval for this permit change application. Western States Minerals has now adequately addressed all the conditions required by this office to finalize this permitting action.

The Division will forward extra copies of the approved plans to appropriate state and federal agencies to update file copies of the approved mining and reclamation plan permit application for the J. B. King Mine. Thank you for your cooperation in completing this permitting action.

Sincerely,

D. Wayne Hedberg  
Data Management Coordinator
