Dear Mr. Gordon:

Re: Amendment to Reclamation Permit Required, Western States Minerals Corporation, J. B. King Mine, ACT/015/002, Folder #2, Emery County, Utah

A reclamation plan of action was submitted to the Division (received June 13, 1989) regarding work to be done during the 1989 field season. Two items that were identified in the schedule of reclamation maintenance and repair must be addressed as an amendment to the approved reclamation plan: (1) erecting 150 feet of new fence; and (2) building a new diversion road around the property.

The amendment must include text changes (UMC 817.116 [fencing] and UMC 817.170-.176 [road]) and be identified on the surface facilities map (No. 3-1) and in the Reclamation Plan (Map No. 4050-5-13-R).

The amendment must be submitted to the Division by August 31, 1989. If you have any questions, please call me.

Sincerely,

A handwritten signature in cursive script that reads "Richard V. Smith".

Permit Supervisor
