To all Operators

Dear Operator:

Re: Submittal of Annual Report for 1991, Company Name, Mine Name, Permit Number,  
Folder #2, County, Utah

JB King  
ACT 1015/002

Enclosed please find the annual report information sheet and 1991 monitoring report to be submitted for the above noted mine(s). I have enclosed what I believe is a current list of outstanding permit stipulations, conditions, and Division Orders for your operation. Please review this list to ensure timely resolution of outstanding issues.

Please submit all of the information by March 31, 1992.

If you have any questions, please call me.

Sincerely,

Lowell P. Braxton  
Associate Director, Mining

ATTACHMENT A  
STIPULATIONS

Stipulation R614-301-120 and R614-301-140-(JK)

*done*

Within 60 days of permit approval, the applicant must submit an accurate and current as-built topographical map of the J. B. King reclaimed mine site suitable for insertion into the Permit Application Package (PAP).

Stipulation R614-301-356.100-(SMW)

*submitted  
under review*

Within 60 days of permit approval, the applicant must submit a vegetative sampling plan suitable for insertion into the PAP which partitions the reseeded areas into at least three sample areas with similar slope and aspect. A weight method of averaging and analyzing the data must be included in the plan.

Stipulation R614-301-742.113-(TM)

*(NOV N91-35-06-01) issued 11/18/91  
abatement date 1/15/92*

Within 60 days of permit approval, the applicant must submit a plan to provide long term solutions for phasing out silt fences and incorporating more permanent erosion control structures in their place. The plan must identify the structures that will be used and how they will be designed and implemented. This material must be submitted for insertion into the PAP.
