Re: Plan Clean-Up, Western States Minerals Corporation, J. B. King Mine,
ACT/015/002-95B, Folder #3, Emery County, Utah

Dear Mr. Gerick:

The Division has reviewed your August 3, 1995 submittal to clean-up your permit. Your letter states that a revised "Table of Contents" and "List of Drawings" will be provided upon acceptance of the amendment. The review of this amendment cannot be completed without the above mentioned items. Therefore, Amendment 95B is hereby denied and I am returning the documents to you for further processing. We will expect you to resubmit them with the revised "Table of Contents" and "List of Drawings". At that time we will assign a new permit change number.

As discussed in our phone conversation the deletions from the permit will be approved by the Division with the exception of UMC 817.71. I also requested that any additional identifiers to help us locate the correct map to be removed be added to the description. When resubmitting please provide eight (8) complete copies of the amendment.

Please call if you should have any comments or question.

Sincerely,

A handwritten signature in cursive script that reads "Susan M. White".

Susan M. White
Senior Reclamation Biologist
