-----

THE STATE OF UTAH TO ALL PERSONS INTERESTED IN TOWNSHIP 16 SOUTH,  
RANGE 7 EAST, SECTION 16, EMERY COUNTY, UTAH.

Notice is hereby given that tentative approval has been given  
by the Utah Division of Oil, Gas, and Mining, to Swisher Coal Company, to  
re-commence coal mining operations on fee and federal lands in Section 16,  
Township 16 South, Range 7 East, SLBM, Emery County, Utah. The mine is  
known as the Huntington Canyon #4 Mine.

Swisher Coal Company has fulfilled obligations under the Mined  
Land Reclamation Act of 1975 (Section 40-8) Utah Code Annotated, 1953, as  
amended, and will perform mining and reclamation of the affected area as  
described below:

(A) During Operations:

- (1) Coal will be mined by conventional underground methods, removed from the mine, crushed and stockpiled below the mine entrance for shipment.
- (2) Natural drainage will be intercepted and diverted around surface facilities and stockpile areas to avoid contamination.

(B) After Operations:

- (1) At the termination of operations, all surface structures, machinery, equipment, and debris will be removed from the site.
- (2) All mine portals and ventilation openings will be sealed with concrete blocks and mortar to prevent unauthorized entry.
- (3) Surface areas and roads will be water barred to prevent excessive erosion and a self-sustaining vegetative cover will be established through soil preparation and seeding or planting of specified plant species.
- (4) Diverted or channeled drainage will be returned to its natural course where practicable.

The objectives of the reclamation plan are to establish physical and biological stability of the mine site and to provide for future uses compatible with the surrounding forest environment. Surety will be established by the Board of Oil, Gas, and Mining to ensure fulfillment of the reclamation obligation.
