Memo to Coal File:

Re: Swisher Coal Company
Huntington #4
ACT/015/004
Emery County, Utah

The above operation was inspected on September 17, 1979 by Doug Stewart, Joe Helfrich, and Tom Suchoski from the State, and Gary Fritz from the Office of Surface Mining. The inspecting personnel were accompanied by Dan Guy from Swisher Coal Company.

No coal mining had commenced since operations were halted in October of 1978.

Areas of concern during the inspection were the Highwall for the upper pad, drainage from the upper pad, sediment control, water monitoring, and O.S.M. approval.

As the operation is temporarily shut down, no violations were issued.

THOMAS J. SUCHOSKI ^{TJS}
RECLAMATION HYDROLOGIST
