Inspection Memo to  
Coal File:

Re: Beaver Creek Coal Company  
Huntington Canyon #4 Mine  
ACT/015/004  
Emery County, Utah

The above mentioned operation was given a full inspection on March 5, 1980 by Doug Stewart and Joe Helfrich from the Division and Gary Fritz from the Office of Surface Mining. State and Federal inspectors were accompanied by Dan Guy, Chief Mining Engineer for Beaver Creek Coal Company.

The purpose of the inspection was to better acquaint Gary Fritz with the compliance work that had been completed last fall. Inspectors looked at the 2 sediment ponds at the lower end of the permit area, adjacent to the access road, culverts and culvert extensions along the access and haul road, and ditches along the main access road. Topsoil has been stockpiled properly and affected areas and downslopes have been re-seeded.

No violations were issued during this inspection.

JOSEPH C. HELFRICH  
RECLAMATION OFFICER
