Memorandum

To: Regional Director, OSM, Denver
From: District Mining Supervisor, USGS-CD,
Salt Lake City
Subject: ARCO Coal Company, Huntington Canyon No. 4
Mine, Mining Plan--Revised Table of Contents
and Cross-Reference Index

The subject material (20 pages) forwarded to this office by letter dated June 29, 1981, was received July 6, 1981, and has been reviewed. This revised table of contents follows the format and content of the Division of Oil, Gas, and Mining (DOGMA) general guidelines for mining permit applications and includes a cross-reference to the Utah Permanent Program Regulations. There is also an added list of applicable OSM Permanent Program Regulations with cross-referencing to the DOGMA permit application items.

All mining and reclamation plans that include Federal leases of coal lands must also comply with Federal regulations 30 CFR 211.10 (c). Our review comments of the Huntington Canyon No.4 mine permit application (Mining and Reclamation Plan) were forwarded to you with a copy to ARCO by letter dated May 4, 1981, (copy attached). In this letter we requested that ARCO furnish a cross-reference index that follows the format of the 30 CFR 211.10 (c) Federal regulations. It is requested that you have ARCO develop the cross-reference index and submit as a supplement to its permit application.

Jackson W. Moffitt
