Honorable Scott M. Matheson
Governor of Utah
State Capitol Building
Salt Lake City, Utah 84114

Dear Governor Matheson:

Beaver Creek Coal Company has filed an application for emergency coal lease Utah 48492, to include 950.00 acres of land in Emery County, Utah. The tract applied for is within the boundaries of the Manti-LaSal National Forest and is located approximately 10 miles northwest of Huntington, Utah. An environmental assessment for this area has been completed by the Forest Service for this area.

A determination has been made that this application qualifies under the regulations at 43 CFR 3425.1-4 for emergency coal leasing. An existing mining operation under lease by Beaver Creek Coal Company is functional on contiguous lands to this application. The plan for development will provide for the orderly development and mining of 4,900,000 tons of coal which is required by Beaver Creek to maintain their current level of production.

The tract is located in Huntington Canyon and access will be through the existing mine and will be transported through existing facilities. The applicant is currently mining by underground methods to the south of the requested area.

We would appreciate receiving any comments you might have concerning this proposal within 30 days.

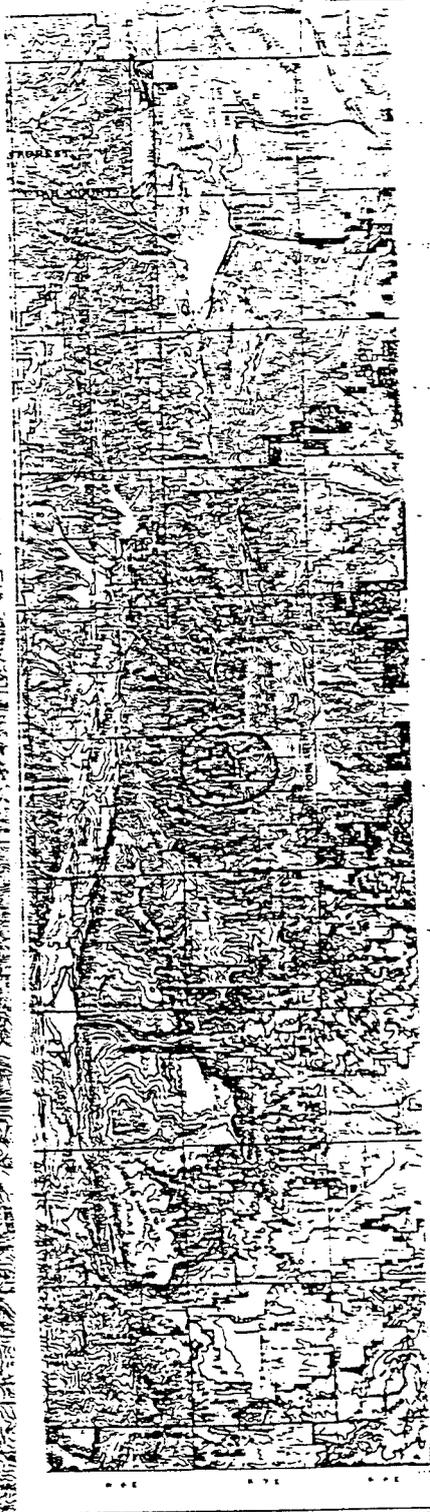

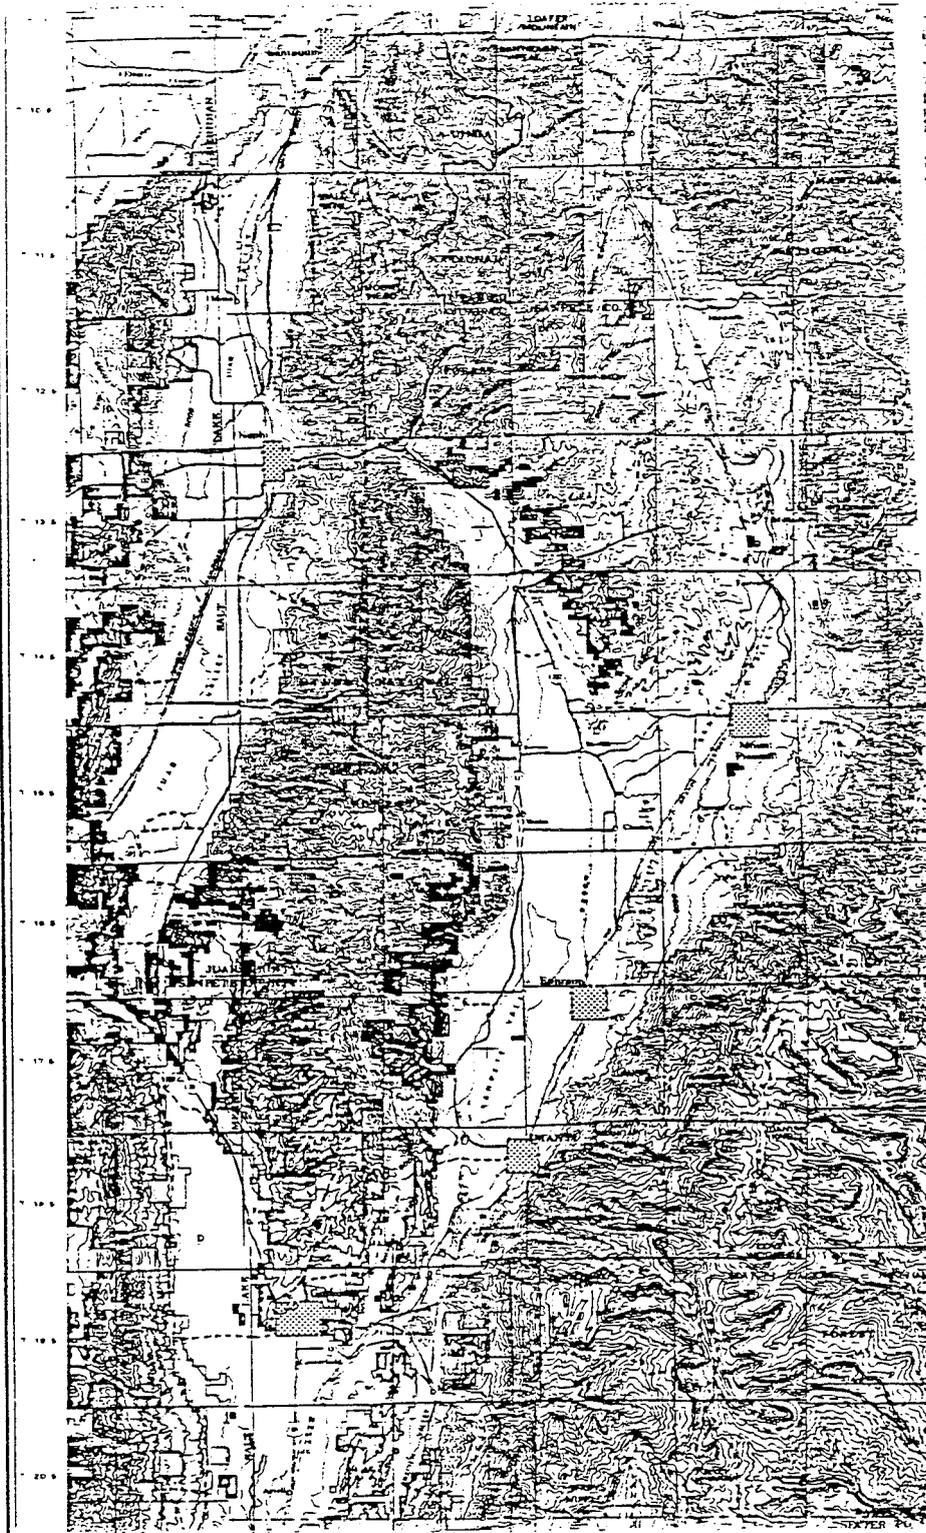

Sincerely yours,

/S/ ROLAND G. ROBISON, JR.

Roland G. Robison
State Director
