Dear Mr. Smith:

The Western Technical Center has completed a review of the information submitted to address special stipulation #4 of the OSM, January 30, 1980 approval to mine at Huntington #4.

In our opinion the requirements of the stipulation have been met by the submitted data and the fact that no additional surface disturbances will occur.

Therefore, OSM agrees that special stipulation #4 has been complied with at present. However, Stipulation #4 should remain in effect so as to be applicable in the event that Arco Coal Co. has any future plans to access the Lower Hiawatha Seam from surface portals.

Sincerely,

Richard E. Dawes
