RE: Kaiser Steel Corporation
Proposed Coal Exploration
on Sunnyside South Lease
CEP/015/004
Emery County, Utah

Dear Mr. Moffitt:

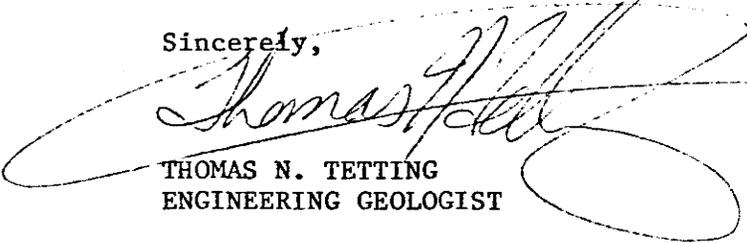

The Division has reviewed the Kaiser Steel Corporation's proposed Coal Exploration Plan for the Sunnyside South Lease, which was received at this office February 11, 1982. The plan under consideration has satisfied the State's concerns except for the following:

1. Who will be the local representative of Kaiser and where may he or she be contacted?
2. Surficial material, i. e., topsoil, should be removed, stockpiled, and protected from wind and water erosion prior to redistribution and seeding. A commitment to this must be made.
3. A commitment by Kaiser to observance of UMC 817.67-.68 must be obtained.

Would it be possible for your office to obtain this information and see to it that it is forwarded to our office to my attention?

Provided that these concerns are met and placed on file with the Division, I see no reason not to approve the plan. In reply, please refer to CEP/015/004.

Sincerely,

THOMAS N. TETTING
ENGINEERING GEOLOGIST
