Inspection Memo  
to Coal File:

RE: Beaver Creek Coal Company  
Huntington No. 4 Mine  
ACT/015/004, Folder No. 7  
Emery County, Utah

A partial inspection was conducted by Barton Kale of the Division on July 28, 1983, accompanied by Ken Fleck, Geologist for Beaver Creek Coal Company. The purpose of the inspection was to familiarize the inspector with the operation as well as observe any items of non-compliance.

At this time no problems were evident. Evidence of discharge from the sediment pond was observed. This was confirmed by the operator, who said that samples were taken and analyzed. The results have not been seen by the inspector as of yet.
