Memorandum

To: Walter Swain, OSM Senior Project Manager for the State of Utah,
Denver

Attn: Mark Humphrey

From: Chief, Mining Law and Solid Minerals, BLM, SO, Salt Lake City, Utah

Subject: Beaver Creek Coal Company, Huntington Canyon No. 4 Mine, Emery County,
Utah, Permit Application Package (PAP)

The 60 pages forwarded with your letter dated September 7, 1984, and identified as "UDOGM's draft final decision document for Huntington Canyon No. 4 for agencies' review and comments" have been reviewed with respect to the underground mining part of the subject PAP.

The resource recovery and protection plan (R₂P₂) part of the above submittal is in conformance with the requirements of 43 CFR 3482.1(c). Our review did not identify any conflicts with the underground mining part of the subject PAP or future coal recovery within the plan area.

Our subject memorandum dated January 10, 1984, listed five concerns relative to the R₂P₂. Although we have noted our approval of material in the September 7 submittal we cannot approve the R₂P₂, BLM's part of the permit application package, until our concerns noted in the January 10, 1984, memorandum are resolved.
