DIVISION OF
OIL, GAS & MINING

JIM

JAN 13 1984

Dear Jim:

On December 27, 1983 we received a copy of a draft Technical Analysis (TA) for the Emery Deep mine prepared for the Division by Bio/West, Inc. Attached was a note addressed to Lou Hamm from Lynn Kunzler requesting that he "look" at it for "format, stipulations, etc". Mr. Hamm and Walter Swain discussed the matter by telephone with Mr. Kunzler to clarify his requirements for assistance and provide guidance on OSM's general requirements for permit application review. This appears to have satisfied Mr. Kunzler's request. We do not plan any further review of this document unless specifically requested by the Division.

OSM will conduct a full review of the draft TA when it meets your requirements and is forwarded to this office. If you have any further questions, please contact Lou Hamm or Walter Swain at (303) 837-3806.

Sincerely,

Stephen F. Manger, Leader
Utah Task Force
