

March 7, 1985

TO: Coal File, Inspection and Enforcement Folder
FROM: Tom Wright, Mining Field Specialist TW
RE: Beaver Creek Coal Company, Huntington Canyon #4,
ACT/015/004, Emery County, Utah

On February 26, 1985 I conducted a partial inspection of the Huntington Canyon #4 site. Dan Guy of Beaver Creek Coal Company accompanied me on the inspection. The weather was warm and sunny.

No activity has occurred on this mine since the last inspection. Beaver Creek is waiting on approval from the Division to begin reclamation of the site.

No runoff appeared to be running on the lower end of the site and access to the upper pad was not possible due to snow depth.

In a letter dated February 20, 1985 from the Division to Beaver Creek Coal a change in the status of the site from active to inactive was approved. This status will be continued until reclamation of the site begins.

No violations were noted on this inspection.
