RE: Review of Second Quarter Water Quality Data, 1988, Beaver
Creek Coal Company, Huntington #4 Mine, INA/015/004, Folder
No. 2, Emery County, Utah

Synopsis

The operator submitted water data for the second quarter of 1988 for the Huntington No. 4 Mine. This memo reviews this data for adequacy.

Analysis

Data was collected on March 22, 1988, and June 7, 1988, for stations 4-3-W and 4-8-W. The sediment pond was inspected monthly (i.e., stations 4-6-W and 4-7-W). Station 4-1-W has not been monitored at all during this quarter. Since it has a bi-annual monitoring requirement, the operator has failed to meet his monitoring commitment. The operator also failed to submit lab sheets for March 22, 1988 on station 4-8-W.

Recommendation

An N.O.V. be issued for failure to monitor in accordance with the approved plan. The operator still is not aware of past monitoring commitments and can not seem to stay on a consistent monitoring schedule.
