FROM: Tom Munson, Reclamation Hydrologist *TM*
RE: Review of Huntington #4 Water Monitoring Data, Beaver Creek
Coal Company, Huntington #4 Mine, INA/015/004, Folder #2
and #8, Emery County, Utah

Synopsis

The operator submitted water monitoring data on January 11, 1988 for the fourth quarter of 1987. The data for June and the third quarter of 1987 was received on November 23, 1987.

Analysis

Based on approval of the PAP amendment INA/015/004-87B, the operator was approved not to monitor TSS and Dissolved Oxygen on non-NPDES stations, and has to monitor Dissolved Oxygen on Station 4-8-W. He has complied with his monitoring requirements for the fourth quarter of 1987. The data will be filed.

Recommendation

The operator must submit to the Division a parameter sheet for each sampling point and list the months when samples will be taken. A phone call was placed on January 27, 1988 requesting this information.
