Re: Phase II Bond Release Inspection, Mountain Coal Company, Huntington #4 Mine,
~~ACT70157004~~ Folder #4, Emery County, Utah

Dear Mr. Ehmett:

The Phase II bond release inspection for the above-referenced mine was conducted during the week on May 18, 1994.

OSM was represented on this inspection by Edzel Pugh and Russ Porter. No Ten-Day Notices (TDNs) were issued as a function of the Phase II bond release inspection of this mine, and no correspondence has been received from OSM suggesting a lack of concurrence with the Phase II bond release request from Mountain Coal Company.

Given no objections to the bond release application from OSM at this time, I presume your office is supportive of the application. If this is the case, would you please provide the Utah Division of Oil, Gas, and Mining with written confirmation required to facilitate processing of the bond release application.

Sincerely,

Lowell P. Braxton
Associate Director, Mining
